

Inland Empire Breastfeeding Coalition presents:

FREE Virtual General Education Session

Uncovering the Vital Connection Between the Liver, Inflammation, and Human Milk

Objectives:

1. Identify role of liver function and inflammation in milk production
2. What impairs liver function and contributes to low milk production
3. Develop methods to support lactating parents in optimizing liver health and milk production

THIRD TUESDAY

January 20th 2026

12:30-2:00pm PT

Love Your Best Life LLC

Did you know your liver plays a key role in producing breast milk? Join us for a powerful session exploring how liver health impacts inflammation, hormone balance, and milk supply.

Learn:

- 💧 How the liver supports lactation
- ⚠️ What impairs liver function and reduces milk production
- 🌿 Practical ways to support liver health for optimal milk flow

Perfect for lactating parents, doulas, and perinatal professionals who want to understand the science behind nourishing the body—and the baby.
