		_		
Deve	lopmen	t and	NIII	rition

32

A. Infant

- 1. Feeding behaviours at different ages
- 2. Food intolerances/allergies
- 3. Infant anatomy and anatomical/oral challenges
- 4. WHO guidelines for introducing complementary foods
- 5. Low birth weight and very low birth weight
- 6. Milk banking formal and informal
- 7. Normal infant behaviours
- 8. Nutritional requirements including preterm
- 9. Preterm development, growth, and behaviours (including late preterm)
- 10. Skin tone, muscle tone, reflexes
- 11. Term development and growth
- 12. WHO growth charts with gestational age adjustment
- 13. Stooling and voiding

B. Maternal

- 1. Breast development and growth (typical and atypical)
- 2. Breast surgery
- 3. Composition of human milk
- 4. Maternal anatomical challenges
- 5. Maternal nutritional status
- 6. Nipple structure and variations
- 7. Nipple modifications (e.g., piercings, tattoos)

II. Physiology and Endocrinology

14

A. Physiology of Lactation

- 1. Relactation
- 2. Infertility issues
- 3. Inducing lactation
- 4. Pregnancy and breastfeeding tandem
- 5. Multiples (e.g., twins, triplets)

B. Endocrinology

- 1. Hormonal influence of milk production
- Diabetes
- 3. Maternal hormonal disorders (e.g., pituitary, thyroid, Polycystic Ovarian Syndrome)
- 4. Maternal autoimmune disorders
- 5. Newborn hypoglycemia

International Board of Lactation Consultant Examiners® (IBLCE®) International Board Certified Lactation Consultant® (IBCLC®) Detailed Content Outline

III. Pathology 35

A. Infant

- 1. Ankyloglossia
- 2. Cleft lip and palate
- 3. Congenital anomalies (e.g., gastrointestinal, cardiac)
- 4. Gastroesophageal Reflux Disease (GERD), reflux
- 5. Hyperbilirubinemia
- 6. Infant neurological disabilities
- 7. Small for Gestational Age (SGA), Large for Gestational Age (LGA)
- 8. Infant acute disease (e.g., infectious, cardiac, metabolic)
- 9. Vertically transmitted infections (e.g., HIV, Hepatitis B)
- 10. Esophageal atresia
- 11. Inborn error of metabolism
- 12. Infant cancer
- 13. Infant GI anomalies

B. Maternal

- 1. Abscess
- 2. Milk ejection reflex dysfunction
- 3. Maternal acute disease (e.g., infectious, cardiac, metabolic)
- 4. Maternal chronic disease
- 5. Maternal disability (physical and neurological)
- 6. Mastitis
- 7. Milk supply, low or over
- 8. Nipple and breast conditions
- 9. Nipple pain and trauma
- 10. Post-partum hemorrhage
- 11. Pre-eclampsia / pregnancy induced hypertension
- 12. Maternal cancer

IV. Pharmacology and Toxicology

14

- A. Alcohol
- B. Nicotine and tobacco
- C. Cannabis
- D. Medications (e.g., prescriptions, over-the-counter, diagnostic and therapeutic procedures, aids to labor and delivery)
- E. Drugs of abuse
- F. Contraception
- G. Galactagogues
- H. Gel dressings/nipple creams
- I. Herbs and supplements
- J. Chemotherapy/radiation therapy/radioactive scans

International Board of Lactation Consultant Examiners® (IBLCE®) International Board Certified Lactation Consultant® (IBCLC®) Detailed Content Outline

VII. Clinical Skills (continued)

C. Ethical and Legal Issues

- 1. Breastfeeding in public
- 2. Clinical competencies
- 3. Code of Professional Conduct (CPC)
- 4. Principles of confidentiality
- 5. WHO code advocacy and policy

D. Research

- 1. Apply evidence-based practice
- 2. Interpret research results
- 3. Use research to help develop policies and protocols
- 4. Design research (including gaining ethical permission)
- 5. Participate in surveys and data collection

E. Public Health and Advocacy

- 1. Advocate for Baby-Friendly Hospital Initiative (BFHI)
- 2. Advocate for compliance with World Health Organization International Code of Marketing of Breast-milk Substitutes (WHO Code)
- 3. Advocate for mother / infant in healthcare system
- 4. Develop breastfeeding-related policies
- 5. Advocate to government / health ministries
- 6. Breastfeeding in emergency situations (e.g., natural disasters, personal emergencies)

Total Number of Items on the Examination

175

International Board of Lactation Consultant Examiners® (IBLCE®) International Board Certified Lactation Consultant® (IBCLC®) Detailed Content Outline

Secondary Classifications

As supported by the practice analysis results, examination items should generally relate to the key tasks associated with developing a care plan, which include:

	Tasks
1	Develop a plan
2	Document
3	Evaluate
4	Help mother determine goals
5	History taking
6	Work with other healthcare providers
7	Visual examination of the breastfeeding mother's nipple and breast
8	Visual examination of the breastfeeding infant's position and latch
9	Verbal communication with breastfeeding families

Except for those items addressing general principles, items are classified according to the chronological period, using the following guidelines:

	Chronological Periods
1	Prenatal - maternal
2	Labour - maternal / birth - perinatal
3	Prematurity (including late preterm)
4	0 - 2 days
5	3 - 14 days
6	15 – 28 days
7	1 - 3 months
8	4 - 6 months
9	7 - 12 months
10	Beyond 12 months
11	General principles (including preconception)

Specific targets are not provided for these secondary classifications, but all chronological periods appear on the examination.
